

## **Introduction to Latin Language**

Dr Shekinah Vera-Cruz

Wednesday 2:00 – 3:00pm, weeks 1 & 2

Lecture Theatre, Ioannou Centre

### **Week 1**

#### **Introduction to Latin grammar**

This session will cover the basic elements of Latin grammar with some notes on translation; the use of dictionaries; and some practical examples of how to approach Latin phrases in academic texts.

### **Week 2**

#### **Using basic Latin**

Following on from the previous session, this lecture will cover how to approach formulaic inscriptions, including common abbreviations; epigraphic conventions; and where to find the major epigraphic databases.

Aspects of these lectures will be interactive, so you are encouraged to bring along writing materials. Additionally, students are strongly encouraged to attend both sessions. Week 2 assumes basic knowledge of Latin grammar and the ability to use a Latin dictionary.
